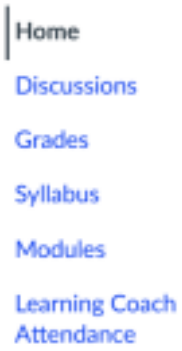
How to Find the Student's Final Grade as of This Moment and Their Progress in the Course

I will continue to send out progress reports every couple of weeks, but this way you can look up your/your student's current final grade and/or their progress complete in the course at any time.

To Get the Student's Final Grade in the Course at this Moment:
(1) Log in to your online account as a student or the parent (learning coach). https://login.k12.com (2) Open a class by clicking on the class icon, you have to open each course separately.

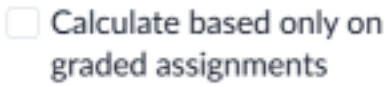
(3) On the left side, click on "Grades".



(4) Once you are in the Grades page, VERY IMPORTANT, **you need to unclick** "Calculate based only on graded assignments". It will be clicked on. If you leave this on, the grade will be ONLY based on what the student has completed so far and will NOT give you the final transcript grade if the student were to do no more work.

This is what it looks like when you first go to the Grades page—on the right you will see:

You need to uncheck it so it looks like this:



(5) Then scroll all the way to the bottom of the page.

This student has earned 219 points of the total 1,715 points available in the course. If they did no more work they would have a final grade of a 12.77%.

Student's Progress in the Course So Far:

(1) To find progress you have to write down there is a total of 1,715 points. Then go back up to the top and put the checkmark back.

(2) Then scroll to the very bottom. This student has earned 219 out of 390 possible points.

(3) There are 1,715 points possible. If we take 390 (the maximum number of points they could have earned on what they have turned in) divided by 1,715 (the maximum points possible in the entire course), we get 0.2274. Multiply this by 100 to get the percentage. This student is 22.74% complete with their course.

How Can the Student Improve Their Grade?

Turning in more assignments will improve their overall final grade. As you were scrolling to the

bottom of the page you can see all of the assignments for the entire course and the points earned on the assignments that have been turned in. If a student wants to improve their current grade, they can resubmit Graded Assignments after fixing what the teacher said needed to be improved. Most courses are set to give multiple attempts on quizzes already—if your course won't let you retake a quiz, reach out to the teacher. To retake a Unit Test a student would need to connect with their teacher to find out what they need to complete to get a second chance—it is usually the study or reading guide for that unit.
